

When using any driving directions or map, it's a good idea to do a reality check and make sure the road still exists, watch out for construction, and follow all traffic safety precautions. This is only to be used as an aid in planning.

There is major road construction lasting all summer and fall of 2008 at the intersection of Highway 61 Bypass and Hershey Avenue in Muscatine, which is on the primary route for guests from out of town to the Muscatine Soccer Complex. We suggest you avoid that intersection, as well as the nearby Lucas Street exit from Highway 61, as it is cut off from left hand or cross bi-pass turns during the project. We suggest using the Cedar Street exit from Highway 61 Bypass. Follow Cedar Street into town (east) and take a right (south) on Houser Street. Follow Houser Street approximately 1.5 miles to the complex.
