

PRESS RELEASE

3rd Avenue Utility and Roadway Improvements (19th Street – 25th Street)

The City of East Moline is about to begin a reconstruction project of 3rd Avenue, from 19th Street to 25th Street. Work will include storm sewer and the replacement of water main, roadway pavement, driveways, and sidewalks. Construction is anticipated to begin April 27, 2009, weather permitting.

Temporary access will be provided to businesses and residences along 3rd Avenue. It is anticipated that the homes adjacent to alleys will use these alleys as access. Alternate routing will be posted during construction for traffic from the East and West.

The city apologizes for the temporary inconvenience but hopes that everyone will soon appreciate these much-needed improvements to 3rd Avenue. During construction, please exercise patience and consideration of others - public cooperation with the city and the construction crews is the key in making this a successful project!

Please contact the East Moline Engineering Department with any questions.
